

Commiphora Myrrha Resin

Commiphora Myrrha Resin is our directly sourced NOP certified oleo gum resin harvested from the plains and hills of Eastern Africa. This deep reddish-brown resin is especially important for oral health. Marinate in water for a few days in an enclosed container for use as a dental rinse. Also encourages circulation, simulates the immune system, and encourages a woman's natural cycle.

- 100% organic, wild-harvested gum resin
- Healing properties: Oral health, circulatory aid, immunostimulant, emmenagogue
- Other uses: incense
- Important Note: avoid during pregnancy

A timeless incense and natural remedy, Commiphora Myrrha Resin is directly sourced from the tree to you with no additives or alterations.
